- University Park – the area more than 17 hectares

## UNIVERSITY CAMPUS

- Total building area 131 thousand sq.m
- 6 architectural monuments of federal significance
- 14 educational buildings, 64 thousand sq.m
- 9 dormitories, 61 thousand sq.m, more than 2500 places

## **FACULTY OF AGRONOMY, AGRO- CHEMISTRY AND ECOLOGY**

### **Bachelor Programs**

- Agrochemistry and Soil Science
- Agronomy
- Horticulture

### **Master Programs**

- Agronomy - Selection and Genetic Methods of Plant Improvement
- Agronomy - Technology for the Production and Processing of Crop Products
- Agronomy - Selection, Variety Testing and Certification of Agricultural Plants' Seeds.
- Agrochemistry and Soil Science
- Horticulture

### **Postgraduate Programs**

- Botany
- General Agriculture and Crop Production
- Biological Resources
- Breeding, Seed Production and plant biotechnology
- Agrochemistry, Agro-Soil Science, Plant Protection and Quarantine
- Gardening, Vegetable Growing, Viticulture and Medicinal Crops

## **FACULTY OF AGRICULTURAL ENGINEERING**

### **Bachelor Programs**

- Agroengineering
- Operation of Transport and Technological Machines

### **Specialist Program(5 years)**

- Land Transportation and Technological Means

### **Master program**

- Agroengineering

### **Postgraduate Program**

- Technologies, Machines and Equipment for the Agro-Industrial Complex

## VETERINARY MEDICINE AND LIVESTOCK TECHNOLOGY

### **Bachelor Programs**

- Veterinary and Sanitary Examination
- Animal Science

### **Specialist Program(5 years)**

Veterinary Medicine

### **Master Programs**

- Veterinary and Sanitary Examination
- Animal Science
- Breeding, Selection and Genomic Technologies in Animal Husbandry
- Private Zootechnics, Livestock Production technology

### **Postgraduate Programs**

- Parasitology
- Animal Pathology, Morphology, Physiology, Pharmacology and Toxicology.
- Sanitation, Hygiene, Ecology, Veterinary - Sanitary Examination and Biosafety.
- Breeding, Selection, Genetics and Biotechnology of Animals
- Private Animal Husbandry, Feeding, Technologies for preparing feed and Producing Livestock Products

# FACULTY OF TECHNOLOGY AND COMMODITY SCIENCE

## **Bachelor Programs**

- Plant-based Food Products
- Food of Animal Origin
- Technology of Production and Processing of Agricultural Products
- Commodity Research

## **Master program**

- High-Tech Production of Functional and Specialized Food Products

## **Postgraduate Programs**

- Analytical Chemistry
- Food Systems

## **FACULTY OF THE LAND MANAGEMENT AND CADASTRE**

### **Bachelor Programs**

- Land Management and Cadastres
- Landscape Architecture

### **Postgraduate Program**

- Land management, Cadastre and Land monitoring

## **FACULTY OF HUMANITIES AND LAW**

### **Bachelor Programs**

- State and Municipal Administration
- Jurisprudence
- Vocational Training  
(by industry)

### **Postgraduate Program**

- Domestic History

## FACULTY OF ECONOMIC

### Bachelor Programs

- Economics
- Applied Informatics
- Management

### Specialist Program (5 years)

- Economic Security

### Master programs

- Economics
- Management

### Postgraduate Program

- Regional and Sectoral Economic

## **PREPARATORY DIVISION FOR FOREIGN CITIZENS OF VORONEZH SAU (PRE-COURSE)**

**Duration of study - 10 months;**

**Applicants wishing to be enrolled at the Preparatory Division for Foreign Citizens VSAU within the quota for education of foreign citizens in the Russian Federation should apply to the Embassy of the Russian Federation in their countries.**

## **AT THE PRE-COURSE YOU CAN STUDY BY ONE OF THE FOLLOWING TRAINING PROFILES:**

- **ENGINEERING AND TECHNICAL (Physics, Maths, Computer Science);**
